NEWS LETTER

Vol 1 Issue 3; NOVEMBER 2018

In our November issue:

GOOD BEHAVIOR AWARDS

This month we were able to award our primary students that were well behaved. Our students are the best of the best so when they go above and beyond to help their classmates and teachers, set good examples and create a fun atmosphere we want to celebrate them. This is one of the ways we are teaching and encouraging kids to bring out their best.

PRINCE OF WALES VISITS

Kumasi had the privilege to host the Prince of Wales and the Duchess of Cornwall in early November. Some of our students were invited to attend the ceremony and read to the Duchess. This was such a privilege and honor. We are so thankful for this opportunity to expose our students to other cultures and give them the ability to meet some leaders in other countries.

DISTINCTION AWARDS

We are so excited to recognize our students that went above and beyond in the 2018 Cambridge exams and present them with distinction awards. We had 40 students that achieved distinction in 2 or more subjects. Each term we have been able to improve on the number of students we are recognizing. This is a reflection of the diligence our students have and the efforts our teachers are putting forth to set all of ICS students up for

MODEL UN

This November our students were able to host our second annual Model UN project. We had students representing nations from all over the world. They were tackling the world issue of Education. It was amazing to see our students research and then present with such confidence on the matter. Our students are learning how to communicate effectively, understand others perspectives and compromise for the greater goal.

ACCRA HIGH SCHOOL CAMPUS OPENS

November was a big month for our schools in Accra! We are so excited to announce the opening of our High School campus in Ogbojo. Our fully air conditioned and spacious classrooms offer students a conducive learning environment. Each classroom takes a maximum of 18 students which allows teachers to have one-on-one interactions with them. We have a modern ICT lab where students learn essential skills like typing, coding and design. Our science lab is fully functional with all the necessary laboratory equipment. We have a large cafeteria which also serves as a multipurpose hall where assembly and other school gatherings are held. Our campus is equipped with 24/7 internet connectivity. The Generator set allows for uninterrupted power supply. Our spacious car park caters for the needs of all our parents and guests. If you are yet to visit the campus we highly recommend you do and we hope you love it as much as we do!

CAREER DAY

Our Pre- School was able to get creative and allow our students to dream of their futures. We had kids arrive as doctors, nurses, lawyers, teachers and so on. We even had some pastors that were in attendance. It was amazing to hear about all the dreams our little ones have and the ways they want to give back to community when they grow older.

I'm not telling you it's going to be easy- I'm telling you it's going to be worth it.

-Art Williams

COLOR TEAMS: SPORTS DAY

On Friday the 23rd we had our annual Color teams sports day. Students were able to take a break from their uniform and rigorous studies to compete in a multitude of sports. Everyone was dressed in their teams colors and supporting anyone who stepped onto the playing field. Activities ranged from sack races, football, basketball, and even some foot races. It was a great day of seeing kids working together and cheering each other on.

Teamwork makes the dream work.

ICS NEWS LETTER PAGE 2

"Bringing out the best in me." This theme was chosen specifically for this year so as to be a constant reminder for all of us to be the best we can be in all the areas we find ourselves in. Commitment and passion are two crucial qualities of true leaders. Students and teachers alike must be committed and passionate about their responsibilities for success to be realised. Looking at many of our great leaders, these two qualities steered them to excellence. For ICS students, I urge you all to be committed to your studies first and foremost. Be disciplined and work hard. Always remember as stated by Marcia Wieder, that commitment always leads to action and that action brings your dreams closer. What this simply means is that if you do not have a dream, then passion and commitment will always be illusive. As Vince Lombardi said, "Most people fail not because of lack of desire but because of lack of commitment". I therefore encourage all our students to have a goal or goals to focus on since this is what will give them the passion and the reason to remain committed and passionate to all that they do here in school. I wish our students all the best as they prepare for their end of term examinations.
