# 3. PREAMBLE

The International Community School (ICS) admission policy articulates the Schools' commitment to ensuring that all learners have access to quality, inclusive, holistic education without fear of discrimination. ICS aims to provide an environment where the race, language, culture, religion and socio-economic status of each learner do not act as unreasonable barriers to them accessing or advancing in any aspect of school life. The school is committed to ensuring that no form of unfair discrimination against any applicant is practiced during the schools' admission process. To this effect, any learner who applies for admission to any grade at ICS will be given a fair and equitable admission process.

ICS is accredited by Cambridge Assessment International Examination (CAIE) to all four levels of CAIE. These four academic programs are the Cambridge Primary (years 1-6), the Cambridge Secondary 1 (years 7-9), the Cambridge Secondary 2 (years 10-11) and the Cambridge Advanced/A-LEVEL.

## 3.1 Objectives of this Policy

The objective of this policy is to:

1. Have a fair and transparent policy for all parents and the general public who have an interest in educating their wards at the school.
2. Provide general principles under which admission to the school are conducted;
  - A. describing how admissions will be administered by ICS.
  - B. clearly defining the admission age for learners.
  - C. providing for the admission of learners who live outside Ghana.
  - D. clearly identify documentation required for the admission process to be completed.
  - E. explain the full cost of education at ICS to prospective parents.
  - F. outline the payment and refund of fees.

## 3.2 Preconditions for admission

1. A complete admission application (being a complete set of all documentation and information requested) is submitted to the school.
2. Applicant fulfills the academic requirements of the school by taking the placement test.
3. Applicant fulfills a satisfactory interview requirement face to face with the school.
4. Applicant exhibits the required age and appropriate social and developmental skills.
5. Whether there are slots available given the capacity of the school.
6. Whether the learner has met the promotion requirements for the grade immediately below the grade to which the admission application relates.
7. Whether the School is able to meet the educational needs of

the learner (including but not limited to any special needs of the learner).

Whether the learner will benefit from the programme of the school given their proficiency in English, being the language of learning and teaching at the school. The inability of a learner to communicate effectively in English may place an unreasonable limitation on their academic progress at the school and could therefore result in the learner not being admitted to the school.

ICS promotes multilingualism as far as this is possible and necessary by offering Spanish and French as additional language subjects.

### 3.5 Criteria for selection where there are limited slots

Where the number of applicants exceed the number of places available at the school or in a particular grade, applicants who meet the criteria for admission set out under the various grades will be considered and placed in the following order, unless admission to the school would not be in the best interests of the learner(s) concerned:

1. *Preference will be given to learners who are siblings of current learners at the school.*
